

Appendix 2

LIST OF ALL SLAA SITES INDIVIDUAL SITE ASSESSMENTS

This appendix provides a list of all SLAA sites by local area. The individual site assessments are also listed in the relevant local area section. In addition, the Deliverable, Developable, Not Currently Developable and Excluded sites in each local area have been mapped. The definitions of these categories are set out in section 3 of the SLAA document. However, for the purposes of the mapping it should be noted that all deliverable sites have assigned to one of the following sub-categories:

- Deliverable (other) denotes sites which do not have planning permission;
- Deliverable (unimp) denotes sites of 5+ units which have planning permission but on which construction has not commenced;
- Deliverable (u/c) denotes sites of 5+ units which have planning permission and the development is under construction.

It is important to note that in this edition of the SLAA, there were no sites identified in the Lightwater local area. Accordingly, there is no section for Lightwater in this appendix, resulting in 10 instead of 11 local area sections.

The site assessments contained within this appendix include sites that already benefit from a planning permission, which is either yet to be implemented or currently under construction. It is not a requirement that all parts of the assessment for sites with planning permission are completed and consequently some parts of such assessments will remain blank.

Both site plans and individual site assessments are numbered with the SLAA reference number for each site.

Bagshot Sites

SLAA Ref.	Site Name	SLAA Classification
181	134 and 136 London Road, Bagshot	Deliverable
386	Woodside Cottage Chapel Lane, Bagshot	Deliverable
